

JEAN-BAPTISTE LAURENT

Back-end Developer

@Jean-Baptiste Laurent

Describe us a typical day

I develop and maintain the web microservices that link Travel Planet and our partners for customer orders, while ensuring that all these transactions are recorded in our databases to allow a complete tracking of the operation history.

Ta plus grande fierté chez Travel Planet

I'm particularly proud and happy that long-standing projects have come to fruition in less than 3 months.

What is your educational background?

After obtaining my Baccalaureate S in 2004, I became a Scientific Computing Engineer thanks to my Master. I then continued my education with a PhD in Applied Mathematics (which I obtained in 2013).

Give us one word to describe you

I'm determinate !

How is working at Travel Planet a different experience compared to your previous professional experiences?

If I had to list the main differences with my previous experiences, it would be: the trust given to us by the management, the atmosphere between teams and the constant presence of a stimulating challenge.

Three words to describe Travel Planet

- Ambitious
- Innovative
- Reactive
