News release

Travel Planet, French Travel Management Company (TMC) interconnects with IRYO, the main private operator of high-speed trains in Spain.

Travel Planet integrates Iryo into its Click & Control platform

Continuing its strategy of connecting directly to mobility operators, Travel Planet announces the integration of Iryo, the leading private operator of high-speed trains in Spain, into its Click & Control platform.

Created by its technology subsidiary Makitizy, this new direct connection is now available to all users.

Thanks to this partnership, business travellers benefit from an enriched experience including premium services: catering, free Wi-Fi, optimised comfort and the latest generation trains. Designed to meet the expectations of business travellers on the move, the Iryo offer offers top-of-the-range services.

Guillermo Turner, Sales Director at Iryo said:

"This partnership with Travel Planet-Makitizy allows us to make our network even more accessible to business travellers and strengthen our position in the European market."

Fabrice Jacquet, Business Development Manager at Travel Planet-Makitizy, adds:

"We are delighted to integrate an innovative Spanish rail operator and to continue to enrich our train offer."

This interconnection promotes the use of a more sustainable mode of transport while ensuring a centralized, fluid and consistent booking experience. We are pursuing our ambition: to make train booking simple and transparent"

This integration is part of a global approach aimed at connecting Click & Control to all European rail operators, thus offering direct access to ever more efficient sustainable mobility solutions. It is also preparing the deployment of new services, such as portals dedicated to corporate and groups, reinforcing Travel Planet's commitment to offering a smoother, richer and innovative travel experience.

About IRYO

Iryo is a trademark of the rail operator ILSA owned by Trenitalia, Air Nostrum and Globalvia. Launched in 2022, the company now connects 11 major Spanish cities, including Madrid, Barcelona, Valencia and Seville. It operates a fleet of latest-generation trains and stands out for its premium offer. Its model promotes more sustainable mobility, with the use of renewable energies, as well as a 100% electric fleet. In three years of operation, Iryo has established itself as a major player in business travel in Spain.

About Travel Planet

Founded in 2014, Travel Planet is a SaaS technology provider specializing in travel management. The group's activity is based on two distinct and technically related businesses:

- *The historical business of TMC (Travel Management Company)*
- *Since 2022, the publishing of SaaS technology platforms dedicated to travel management and the distribution of travel operators' services, under the name Makitizy.*

The Travel Planet group is therefore now moving forward on two legs in the travel industry by offering unique solutions on the market.
